A LEXANDRE DUMAS'S GREAT WORK.

THE CONSCRIPT;
A TALE OF THE EMPIRE.
BY ALEXANDER DUMAS.

In one beautiful 12mo, vol. of over 400 pp. Price \$1.

Since the appearance of "The Count of Monte Cristo" the author has written no work equal to this in brillhaucy and power.

The original title was " Dieu et Diable," changed by the trans lator to "The Conscript." It is essentially a story of peasant-life in striking contrast to the creations of the writer's previous

productions, wherein the principal figures were Kings, Dukes and Princes, and not the bumbler members of the great social

system. All the phases of existence in the cottage-homes of France; the demestic misery produced by the conscription and the terrors of the dreadful campaign of the first invasion of

France, terminating in the first occupation of Paris by the Al-lies; the terrible battles in the east of France, and the acrival of

Napoleon like a thunderboit to disturb the brief triamph of Ab-

also where he is rarely described—in the hospital—are faithfully narrated in the masterly manner for which the author is so cel-

chrated. The whole book sustains and teaches a morality

Daniel Webster delivering a speech. Price \$1. Sent by and,
Nortices or THE PRESS;

"A book which the Young Men of America will appreciate."

Furnishes a convenient manual for all persons who wish to
prepare themselves to take part in popular Debate. It is prepared with conscientious fidelity."

[N. Y. Tribune.

"The rules and suggestions, arranged and classified in the clearest manner, embrace nearly all imaginable circumstances in which a speaker is likely to be placed."

"Full of valuable information and instruction."

"It is well considered."

"It is well considered, and we hope it will be generally read and particularly practiced."

"Its clear style, comprehensive range and novel elements make it an attractive work. The whole is of a practical character."

We can now Sil our orders for this extraordinary work, by MARGARET FULLER OSSOLI

WOMAN IN THE 19TH CENTURY.

COLFuller, of The New York Mirror, speaks thus of this wonderful weman and of this book:

"The book is a remarkable one, and more philosophically suggestive on the Woman question than anything that has hitherto-cmanated from the pen of woman.

"Margaret Fuller was a decided character—a veritable entity—an apparition upon the horizon of humanity not soon to be forgotten.

tity—ah apparison upds to solve forgotten.

"As a scholar, we have never known her equal among her sex; as a writer, she has few if any superiors in philosophical force and poetic suggestiveness; and as staker, her eloquence has the startling spontaneity of inspiration. It seemed as if the opaque creation undeally because transparent to her vision, and, like the rapt apostic when caught up into the saventh heaven, she saw things 'not lawful for man to utter—not possible for mertals to understand."
